*Beautiful waterscapes created from carefully crafted clay scenes give this sweet, rhyming bedtime story a unique & dramatic backdrop. Popular author Patricia Hubbell's writing exudes charm & whimsy. A busy day in an underwater world comes to a close as Papa Fish sings his little fish to sleep. Our little fish encounters humpback whales, green sea turtles, sea horses, sea lions & many other creatures of the sea. Eaddy's meticulous research on species & region give this book the strength of nonfiction reference, while her soothing images provide the softness & comfort of a bedtime story.*
